

GUIDELINES FOR RELEASE

PROVIDED BY THE INDIANA DEPARTMENT OF CORRECTION

SCREEN PROCESS

Screen all releasing individuals for COVID-19 symptoms and perform a temperature check:

If an individual CLEARS the screening process and has not been in quarantine and/or isolation release as normal.

If an individual DOES NOT CLEAR the screening process during release screening, follow the below protocol:

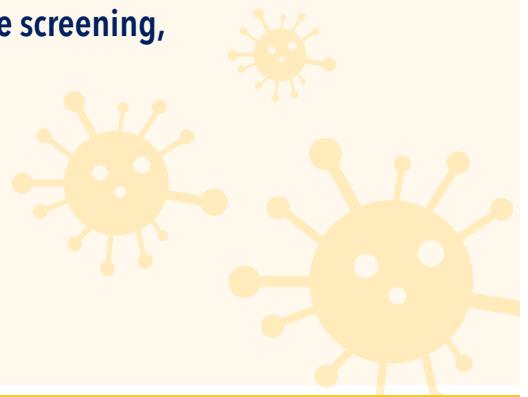

Putting a face mask on the individual.

Immediately placing them under medical isolation; and

Evaluating them for possible COVID-19 testing.

COVID NOT TESTED

If an offender is in medical isolation/quarantine has not been tested is being released:

IDOC will contact local public health department to which the offender is being released for further monitoring.

Additional guidance will be given to the offender and family in accordance to CDC Guidelines for release.

COVID POSITIVE

If an offender is COVID positive, presumed positive, and/or symptomatic at time of release:

IDOC will contact family members or placement facility prior to release.

Contact local public health department to which the offender is being released for further monitoring.

Continue necessary medical care.

Additional guidance will be given to the offender and family in accordance to CDC Guidelines for release.
